

To Whom it may concern,I am a new listnener to satelllite radio. I purchased areceiver and am paying a monthly fee to be a subscriber to Radio music, entertainment, information services such as stocks, weather, traffic, and the latest news stories. This gives radio a whole new outlook. I have told all my friends how great this is and it is worth subscribing to all the channels with no commercials. I can not believe that the NAB is trying to dictate what I listen to when I am the one paying for it. I URGE the FCC to reject the NAB's petition 04-160 and please support the best thing that has happened to radio, XM Satellite.

Thank you,
